Subject: Comments on "The Constitution (Amendment) Republic) Act, 2024.

Dear Sir/Madam,

Thanks for the opportunity to make a comment on "The Constitution (Amendment) Republic) Act, 2024.

1. What are the real changes to the constitution of Jamaica apart from the new institution of the "President"?
2. What really are the new strengths of power of the "President" over the Queen/Governor General?
3. What are the tangible benefits of the constitutional rights of the Jamaican People?
4. There are already contradictions in many laws in Jamaica.
5. The original constitution at least outlined the fact that Jamaicans should not be treated in an inhumane manner. On a daily basis that is the reality of the Jamaican experience, absolute horror. Beaten and whipped on several levels in the employment sector.
6. I am willing to provide the necessary testimony of these abuses by the state, church etc
7. What really are the benefits of the new constitution to the people of Jamaica?
8. How can the expenses of these processes be justified? - Try getting a bus in the Lawrence Tavern Area etc.
9. What of equipment in hospitals?
10. Why can't you get a ticket to attend sittings of parliament? - Why no ramps for the disabled to enter Houses of Parliament.

Thanks for your response and invitation to attend.

Yours respectfully,

Helen-Ann Elizabeht Wilkinson
